

ANNE WITH AN E

We found it a very interesting and entertaining activity , especially because of the chosen theme, which motivated us,because we loved Anne with an E and wanted to share it with the rest of the class and encourage them to see it, because it's worth it.

We have made the presentation in this way because the theme of Anne with an E seemed very related to us and with the background of the orchard here in Alboraya, thus it gives an atmosphere like the series.

It has motivated us to do kahoot because it is an activity that many people like and it keeps colleagues attentive.
